

# Allied-Visions GmbH

[www.allied-visions.de](http://www.allied-visions.de)

Headquartered in Obernkirchen, Germany, Allied-Visions GmbH specializes in developing software solutions for the military aviation industry. It was established in 1997 by Martin Seger, a former helicopter pilot and experienced engineer. The company has been ISO 9001:2000 certified since August 2007 and its quality management system has been audited by TUV NORD.

Allied-Visions has been using BIRT since 2006 in Java/JSP web applications for monitoring and managing both sales and employee work time. The data comes from both distributors and their employees and is then stored in an SQL database. Users can select a report from a list, at which time a separate form page shows the report's parameters, allowing the user to set up and parameterize the report. Once it has been customized, it can be exported directly to a spreadsheet, Word, PDF or HTML view (with or without frameset).

Information source from 'Get Your BIRT Rocks T-Shirt program' and Allied-Visions GmbH (<http://www.allied-visions.de/company/aboutus>) on 8/2/2010.
