

# Benefit Outsourcing Solutions

[www.benefitoutsourcing.com](http://www.benefitoutsourcing.com)

Benefit Outsourcing Solutions (BOS) is a boutique organization that provides medical, pharmacy and dental plan sponsors with a customer service model that uses trained benefit professionals and a customizable technology platform. This model allows BOS to provide large companies with IT capabilities, excellent service and competitive fees.

BOS uses the most current and sophisticated tools to develop its software applications. Applications are built on top of Oracle databases and include the use of Java, Struts, Hibernate, Drools and AJAX. Development tools include MyEclipse, BIRT, Ant, Toad, Softerra LDAP Administrator and Visio. Security, accuracy and agility are hallmarks of the company's success.
