

Ericsson

www.ericsson.com

Ericsson is a world-leading provider of telecommunications equipment and related services to mobile and fixed-network operators. Over 1,000 networks in more than 175 countries utilize their network equipment; 40 percent of all mobile calls are made through their systems.

The WCDMA (Wideband Code Division Multiple Access) Systems division of Ericsson uses BIRT within the IBM Rational ClearQuest application to generate statistical Change Request reports for internal software teams. The teams are made up of developers and project managers who use the reports to analyze and manage change requests. Reports vary from “Reported Change Request Per Month” to “Amount of Change Requests” on a specific area of a software development project.

Information source from ‘Get Your BIRT Rocks T-Shirt program’ and Ericsson (<http://www.ericsson.com/ericsson/corpinfo/index.shtml>) on 10/11/2010.
