MyEclipse Reports by Genuitec, LLC simplifies the process of developing, deploying and testing a wide range of web reports. This suite of advanced report development tools, featuring a runtime report engine, were designed to work in a seamless manner with MyEclipse web-project tools, database tools, and Java EE application-server connectors and smart-deployment facilities.

With the help of Eclipse BIRT Integration, the MyEclipse Reports Design perspective provides customizable organization of the key MyEclipse report design, database access and project management tools (see example below).
