

# Grafton

[www.grafton.org](http://www.grafton.org)

Grafton is a multi-service organization providing services to children, youth and adults with a range of disabilities. A team of dedicated professionals – utilizing Grafton’s unique holistic approach to care – creates an appropriate, individualized care plan and follow-through methodology. Grafton serves clients from all over Virginia and neighboring states at their four facilities in the Shenandoah Valley and Richmond regions.

BIRT’s reporting tools are used by LWSI (Lavender & Wyatt Systems, Inc.), the vendor of Grafton’s electronic client records. Grafton then supplements the standard reports that come with their Essentia system and links them to data from other systems. The organization plans to use BIRT further in the future to fulfill the bulk of their reporting needs.

Grafton especially likes BIRT because it provides the ability to access a great variety of data sources and ease of report layout. BIRT has also given them the ability to output a variety of data formats and produce graphs and charts.

Information source from ‘Get Your BIRT Rocks T-Shirt program’ and Grafton (<http://www.grafton.org/> and <http://www.grafton.org/about-grafton/about-grafton.html>) on 8/2/2010.
