

IBM (IBM Rational Method Composer)

www.ibm.com

IBM® Rational® Method Composer is a flexible process management platform with the industry's most comprehensive tooling and richest process library, all designed to help companies implement effective processes for successful software and IT projects.

BIRT Report Designer is integrated into Rational Method Composer Version 7.2. BIRT also offers a charting engine that can be used to add charts to a user's own application.

Learn how to use the capabilities and templates for BIRT that are included in IBM® Rational® Method Composer (starting with Version 7.2) at:
