IBM SPSS is a leading global provider of predictive analytics software and solutions. Commercial, government and academic customers worldwide rely on SPSS technology for a competitive advantage in attracting, retaining and growing customers, while reducing fraud and mitigating risk.

BIRT has been integrated into IBM SPSS's ShowCase Suite 8.0, enabling users to improve the usability and readability of reports with crosstab enhancements. Report creators can also leverage XML data sources and take advantage of tag library support for linking crosstabs and graphs and defining parameters.
