

TSolucio, Consultoria Informática

www.tsolucio.com

TSolucio, Consultoria Informática is a consulting firm devoted to information technology (specializing in the Internet, scorecards, and tools to aid the decision-making, automation and optimization of business processes, information security, maintenance and the operation of computer systems). Their clients are companies that are expanding and want to leverage the advantages that new technologies can provide to grow their business. They also want to do that at an affordable cost, and TSolucio uses non-proprietary systems for those organizations that do not want to pay expensive license fees.

BIRT is used by TSolucio to extend vtiger CRM's reporting for senior-level business users. For more information on BIRT's integration with vtiger CRM, visit:
